

Qualifications

Dr. Leo Gómez is a retired professor in the field of Bilingual/ESL & DL Education and original author of the Gómez & Gómez Dual Language Enrichment (DLE) Model created in 1995. The *Dual Language Training Institute* is offering an online training titled: *Creating and Optimizing Use of the Print-Rich DLE Classroom in the Gómez & Gómez Elementary DLE Models*. This online training is applicable to All grade levels and only for schools or districts currently implementing the Gómez & Gómez Elementary DLE Program.

Over the last 35 years, his research has focused on linguistic and academic issues that affect language minority populations, particularly Spanish dominant *DLLs*. He has published several articles on DLE, describing the need for schools to implement *enrichment* models of bilingual education that not only more effectively educate bilingual learners, but all children. He has been extensively involved in the development, implementation and assessment of one-way & two-way DLE programs implementing a *Dual Language Enrichment Model* he originally developed in 1995. The consistent implementation of this model has proven effective in improving the long-term academic and linguistic achievement (based on standardized test in reading & mathematics) of Spanish and English dominant students.

Over the last 29 years the Gómez & Gómez Elementary DLE Program has been successfully implemented in over **700 elementary schools** and the Secondary DLE Program has been successfully implemented in **22 middle schools and 6 high schools** in **145 school districts across 11 states: Alaska, California, Colorado, Illinois, Kansas, New Mexico, New York, Oklahoma, Oregon, Texas, and Washington.**

Dr. Leo Gómez has conducted countless professional development workshops on DLE program development and implementation and other topics in the field of bilingual/ESL education, as well as secured, administered, and evaluated Title VII and Title III Bilingual/ESL grant programs.
