

Introduces *Family Literacy*

By its very nature, the Gomez & Gomez Method builds on the bilingual interests of families to drive dual language literacy in school. Now, The Family Learning Company goes beyond school doors to offer a literacy solution that incorporates the entire family.

- Are there any adults in your student's homes who need to read and write better to succeed?
- If they had an appropriate program at home, could your students help their adult relatives learn to read and write in English?
- Would your students achieve even more in school if their parents and relatives could help them?

Now, for the first time, you can purchase a program for your students that comes with a complete adult literacy solution linked with your student program.

Support shared goal setting, shared learning and shared progress on a research-based state of the art program.

And *Family Literacy* is designed to be fully integrated with the Gómez & Gómez Dual Language method.

Come visit us at our booth at DLTI 's Achieving the Bilingual Dream conference to see how the first ever dual language family learning software works.
